Mrs. Rosenzweig and Daughter Badly Injured When Horse Runs Away—Miss Agnes Greenman's Death.

Much sympathy is expressed for the family of Mr. Rosenzweig, who recently moved here from New York. Last Wednesday, Mrs. Rosenzweig and one of the daughters were severely injured by being thrown from a wagon. The horse became frightened and ran for some distance, throwing Mrs. Rosenzweig and daughter to the roadside against the stones. Besides receiving several bruises and numerous cuts and bruises, they were injured internally and have been in a critical condition. They were taken to the local hospital of Fred Greene, and medical help was summoned and then they were removed to their own home. Two smaller children who were in the wagon when the horse began to run escaped without injury, as they managed to slide out of the rear of the wagon, striking the soft sand in the road. Three doctors attended the injured people and made them as comfortable as possible.

THE GREAT HALF MILE BOARD WALK AT GROTON LONG POINT

Have you visited this wonderful property yet? Seen the long stretches of sandy beach front—the Club House and large pier for property owners—the splendid motor boat harbor—the miles of winding roads and drives—the great wells of pure cold water and noted the thousands of dollars which are being spent on Improvements? Until you have seen LONG POINT you cannot realize how big and fine it is, or what opportunities it presents for bungalows or as an investment. The land rises gradually from the water's edge to a height of 35 feet, so that nearly every bungalow will command a magnificent view of the water, which surrounds THE POINT on three sides.

Last season in 3 months about 150 genuine Americans visited the property, and to these we sold out our entire first addition. Many of those who purchased in this first section have already sold out at a profit—the others can very easily do so. They have seen houses go up all around them, noticed the advancing prices, and realized that this is the last great shore development, consequently they own a monopoly. The demand for beach property is steadily increasing, but the supply cannot increase a single foot. Remember how values increased at Ocean Beach, Watch Hill, Sayon Rock and other desirable beaches.

YOU ARE TOO LATE

for this first section, but you have one last opportunity—our second addition. You will not have to pay increased prices, for lots in this new section will sell at the original prices at which lots were sold for last year. Do you see your opportunity? This, which we have held until the last, is the best. It fronts for over a mile on the finest sandy bathing beach on Long Island Sound. Along this beach a BOARD WALK 10 feet wide and one-half a mile long has been built. Here you can walk while the ocean pounds and rolls at your feet. Plots along this walk are cheap NOW. The increase in valuation of this plot will pay your summers' expenses for the next few years, and you will have the use of it besides. Remember once in a lifetime is a new desirable beach started. No more in this vicinity can ever be. Think of this seriously.

YOU CAN'T AFFORD IT?

Notice the prices and terms. Plots 50 x 125 feet from \$195 upward. 10 per cent. down and the balance in easy 2 per cent. monthly payments. In New London take the ferry to Groton and there take a trolley car to GROTON LONG POINT (a 22-minute ride).

Send for booklet and list of purchasers.
